

## **Cisco TelePresence Video Master Partner Certification for NextiraOne Poland**

**NextiraOne is first Polish integrator to achieve Cisco's highest level  
of certification in video**

**Warsaw, 11 October, 2011** - NextiraOne Poland has met all ATP program requirements and criteria necessary to earn the designation of Cisco ATP – Cisco TelePresence Video Master Partner in Poland. This means that NextiraOne experts are now even better prepared to sell, design, install and support specific video technologies and products that are becoming increasingly important for Polish companies. According to Cisco's Visual Networking Index report, the global IP traffic associated with video conferencing will grow by six times in the period from 2010 to 2015. This means that this video index will grow nearly twice as fast as the total increase in IP traffic generated by companies.

“Obtaining the prestigious Cisco TelePresence Video Master Partner certification is an important achievement for NextiraOne Poland. It demonstrates an expert knowledge and the long-term company's expertise in this area of Cisco technology. NextiraOne Poland will continue to focus on further development of the company's offer for its customers to deliver them maximum business benefits,” said Marek Kobielski, CEO of NextiraOne Poland.

In Poland NextiraOne is already a Cisco Gold Partner and Cisco Managed Services Master Partner. The company also holds Cisco specialisations in Advanced Security, Advanced Unified Communications, Advanced Wireless LAN, Advanced Routing & Switching, Advanced Data Center Networking Infrastructure and Advanced Data Center Storage Networking.

NextiraOne Poland's experts also hold more than 50 Cisco certifications. The company has previously been recognised by Cisco for its investments in sales development and technical expertise in communications solutions based on IP technology, for its focus on high quality services and also for its achievements in the design and implementation of IP-based solutions.

## **About NextiraOne**

NextiraOne is a European multinational company that designs, installs, maintains and supports business solutions and communications services for over 60,000 private and public sector customers. Using its expertise in leading-edge communications, including data centres, contact centres, unified communications, secure network infrastructures and managed services, NextiraOne helps its customers to transform their organisations, making the complex simple.

Headquartered in Paris, NextiraOne has a direct sales and service presence in 16 countries with more than 4,300 employees across Europe, including 2,500 qualified service experts, and an annual revenue totalling around one billion euros in 2010.
