

# Industry

NextiraOne provides specific solutions to meet the needs of organisations in a number of distinct market sectors. Our unique European coverage and scale means that we understand the challenges faced by businesses and public sector organisations of all sizes. Our strength lies in recognizing that one size does not fit all and creating tailored solutions that suit our customers' business and operational imperatives.

Working closely with our strategic technology vendors as well as a number of specialist technology and service partners we have developed a service-led approach to designing, deploying, managing and optimising ICT solutions for the following industry sectors:

## Finance and insurance

Delivering flexibility, performance and security

## Public Sector

Cost-effective quality of service for public organisations

## Healthcare

Harnessing communications to improve healthcare environments

## Small and medium companies

Smarter communications for better business

## International Business

Creating simplicity in complex networks
